

## Innovation Analyst (m/f)

### Full-time position

HydrUStent was founded in 2016 as a medical device company, focus on the research and development of Biodegradable medical devices. The first product of the company is a patented biodegradable, anti-bacterial and tailor-made ureteral stent. Our stent not only reduces the risk of bacterial infection but it also cuts down half the number of surgical procedures reducing the treatment cost by 60%. Based on the patented technologies we are looking to continue to develop new medical devices.

Among our customers are several world's leading companies in the urology and biomaterials field.
